

Adial Pharmaceuticals' Chief Executive Officer to be Featured Live on Cheddar's "Closing Bell"

August 6, 2019

CHARLOTTESVILLE, VA / August 6, 2019 / Adial Pharmaceuticals, Inc. (NASDAQ:ADIL) (NASDAQ:ADILW), a clinical-stage biopharmaceutical company focused on the development of treatments for addiction, today announced that its Chief Executive Officer, William Stilley, will appear live today as a guest on Cheddar with hosts Hope King and Brad Smith at approximately 4:40 pm ET. Mr. Stilley plans to discuss the alcohol and opioid abuse problem in America as well as the Company's lead investigational new drug product, AD04, a genetically targeted therapeutic agent for the treatment of Alcohol Use Disorder. The Company is also exploring the potential use of AD04 in patients with Opioid Use Disorder.

A replay of the interview will also be made available on the Company's website.

About Cheddar

Cheddar is the leading post-cable news, media, and entertainment company. Cheddar broadcasts live on SlingTV, Hulu Live, YouTube TV, Philo, Twitter, Facebook Watch, Pluto, Xumo and more. Watched live by more than 6.5M people each month, Cheddar also garners hundreds of millions of organic video views monthly across Facebook, YouTube, Twitter, Snapchat, Instagram, LinkedIn and other social & distributed video platforms. Cheddar currently broadcasts two live video news networks: Cheddar, a business news network covering the most innovative executives, founders, products, and technologies transforming our lives and economy; and Cheddar News, a fast-paced, young, non-partisan general news and headline news network. The company broadcasts from the trading floor of the New York Stock Exchange.

About Adial Pharmaceuticals, Inc.

Adial Pharmaceuticals is a clinical-stage biopharmaceutical company focused on the development of treatments for addictions. The Company's lead investigational new drug product, AD04, is a genetically targeted therapeutic agent for the treatment of Alcohol Use Disorder (AUD). A Phase 2b clinical trial of AD04 for the treatment of AUD showed promising results in reducing frequency of drinking, quantity of drinking and heavy drinking (all with statistical significance), and no overt safety concerns (there were no statistically significant serious adverse events reported). The Company plans to commence a Phase 3 clinical trial using AD04 for the potential treatment of AUD in subjects with certain target genotypes, which are to be identified using the Company's proprietary companion diagnostic genetic test. AD04 is also believed to have the potential to treat other addictive disorders such as opioid use disorder, gambling, and obesity. www.adialpharma.com

Forward Looking Statements

This communication contains certain "forward-looking statements" within the meaning of the U.S. federal securities laws. Such statements are based upon various facts and derived utilizing numerous important assumptions and are subject to known and unknown risks, uncertainties and other factors that may cause actual results, performance or achievements to be materially different from any future results, performance or achievements expressed or implied by such forward-looking

statements. Statements preceded by, followed by or that otherwise include the words “believes,” “expects,” “anticipates,” “intends,” “projects,” “estimates,” “plans” and similar expressions or future or conditional verbs such as “will,” “should,” “would,” “may” and “could” are generally forward-looking in nature and not historical facts, although not all forward-looking statements include the foregoing. The forward-looking statements include statements regarding plans to commence the first Phase 3 trial of AD04 and the potential of AD04 to treat AUD and other addictive disorders such as opioid use disorder, gambling, and obesity. Any forward-looking statements included herein reflect our current views, and they involve certain risks and uncertainties, including, among others, our ability to commence the Phase 3 clinical trials as expected, the ability to expand the use of AD04 for use in patients with opioid use disorder, gambling and obesity, the ability of AD04 therapy to perform as designed, to demonstrate safety and efficacy, as well as results that are consistent with prior results, the ability to enroll patients and complete the clinical trials on time and achieve desired results and benefits, our ability to obtain regulatory approvals for commercialization of product candidates or to comply with ongoing regulatory requirements, regulatory limitations relating to our ability to promote or commercialize our product candidates for specific indications, acceptance of its product candidates in the marketplace and the successful development, marketing or sale of products, our ability to maintain our license agreements, the continued maintenance and growth of our patent estate, our ability to establish and maintain collaborations, our ability to obtain or maintain the capital or grants necessary to fund its research and development activities, and our ability to retain our key employees or maintain our Nasdaq listing. These risks should not be construed as exhaustive and should be read together with the other cautionary statement included in our Annual Report on Form 10-K for the year ended December 31, 2018, our subsequent quarterly reports on Form 10-Q and our other Current Reports on Form 8-K filed with the Securities and Exchange Commission. Any forward-looking statement speaks only as of the date on which it was initially made. We undertake no obligation to publicly update or revise any forward-looking statement, whether as a result of new information, future events, changed circumstances or otherwise, unless required by law.
