

# **Adial Pharmaceuticals to Present at the H.C. Wainwright 23rd Annual Global Investment Conference**

September 7, 2021

CHARLOTTESVILLE, Va., Sept. 07, 2021 — **Adial Pharmaceuticals, Inc. (NASDAQ: ADIL; ADILW)** (“Adial” or the “Company”), a clinical-stage biopharmaceutical company focused on developing therapies for the treatment and prevention of addiction and related disorders, today announced that William Stille, Chief Executive Officer of Adial Pharmaceuticals, will be presenting at the H.C. Wainwright 23<sup>rd</sup> Annual Global Investment Conference being held virtually between September 13-15, 2021.

Adial Pharmaceutical’s presentation will be available on-demand to registered attendees via the conference platform beginning Monday, September 13, 2021 at 7:00 AM Eastern Time.

The webcast can be accessed [here](#) and on the investor relations section of Adial Pharmaceutical’s website at <https://ir.adialpharma.com/>. Management will also be participating in one-on-one meetings with qualified members of the investor community throughout the conference.

## **About Adial Pharmaceuticals, Inc.**

Adial Pharmaceuticals is a clinical-stage biopharmaceutical company focused on the development of treatments for addictions. The Company’s lead investigational new drug product, AD04, is a genetically targeted, serotonin-3 receptor antagonist, therapeutic agent for the treatment of Alcohol Use Disorder (AUD) and is currently being investigated in the Company’s landmark ONWARD™ pivotal Phase 3 clinical trial for the potential treatment of AUD in subjects with certain target genotypes, which are to be identified using the Company’s proprietary companion diagnostic genetic test. A Phase 2b clinical trial of AD04 for the treatment of AUD showed promising results in reducing frequency of drinking, quantity of drinking and heavy drinking (all with statistical significance), and no overt safety concerns (there were no statistically significant serious adverse events reported). AD04 is also believed to have the potential to treat other addictive disorders such as Opioid Use Disorder, gambling, and obesity. The Company is also developing adenosine analogs for the treatment of pain and other disorders. Additional information is available at [www.adialpharma.com](http://www.adialpharma.com).
